Experienced developer proficient in Javascript and Salesforce development, seeking to transition into a full Front-End Developer role after 2 years of Salesforce development experience and completion of a Javascript development course.

Work experience

Frontend / Salesforce Developer
Deloitte Digital, Jan 2021 - Nov 2022

Working on the B2B Commerce cloud, implementing custom JavaScript components using the Lightning Web Components framework. Developed implementations using tools like Visual Studio Code, SourceTree, and Azure DevOps.

Software Quality Assurance
Ipsos Interactive Services, Jan 2019 – Nov 2019

As an associate Quality Assurance executive, my role involved participating in project meetings, checking questionnaire materials, implementing updates, programming logic control, monitoring data collection, and delivering data according to client specifications.

Customer Support and Compliance
Fast Support, Mar 2018 – Jun 2018

Responsibilities included providing professional assistance to English-speaking customers, identifying their needs, and maintaining confidentiality during investigations.

Skills

- Vanilla Javascript
- ECMAScript 6
- CSS
- Sass
- HTML5
- React familiarity
- Vue Familiarity
- Salesforce Development

Experienced with Kanban and Agile methodologies
